Casner Prize for Outstanding
Achievement; Moriarty Prize;
Kiphuth Scholar

Matthew H. Meade

MEMBER

Matt Meade concentrates his practice in the area of data security providing advice to clients regarding data breaches, information and records management, and other areas concerning data security. Matt helps clients identify business risks associated with the use and storage of sensitive information. He regularly guides clients through security incident investigations, analysis, communications, and, if necessary, responding to regulatory inquiries and litigation. He advises clients on security breach notification laws and other U.S. state and federal data security requirements (including laws regarding disposal of records). Matt drafts agreements addressing issues related to data use, privacy, and security. He also prepares document retention and management policies and develops associated training programs.

Matt speaks and writes regularly on data security matters and serves on The Sedona Conference Working Group Series Leadership Council, after previously serving on the Steering Committee for Working Group II on Data Security and Privacy, through which lawyers, judges, policy makers, security experts, technologists, and business leaders work together to identify and develop principles and best practices to constructively resolve issues surrounding data security and privacy liability. Matt has served as a Co-Chair of the ABA's First, Second, and Third Annual National Cybersecurity Institute (2016-2018).

REPRESENTATIVE MATTERS

- Advised numerous entities, including healthcare providers, manufacturers, retailers, schools, financial services companies, county governments and collection agency on information security breach notification procedures and development of post breach corrective action plans.
- Coordinated response to multi-state security breaches, ransomware, and hacking incidents with local and federal law enforcement, and United States Attorney.
- Performed comprehensive review and subsequent revisions of all security policies for leading hospitality provider and then provided data security training to managers and executives on subjects covered in policies.
- On behalf of a healthcare automation solutions provider, obtained dismissal of claims arising from the theft of an employee's laptop computer containing protected health

information, on grounds that court lacked subject matter jurisdiction because plaintiff failed to adequately allege injury-in-fact.

- Conducted employee cyber training sessions in hospitality, education, healthcare, manufacturing, insurance, and financial sectors.
- Organized, ran, and oversaw tabletop mock data breach scenarios for multiple organizations including universities, energy companies, banks, insurance companies, and healthcare organizations.
- Developed cyber training for board of directors of community bank and manufacturing company.
- Conducted comprehensive review of security implications of agent agreements for provider of homeowner's insurance.
- Prepared and reviewed company security policies including Written Information Security Programs, document management, and incident response plans.
- Coordinated internal investigations of healthcare data breaches, subsequent patient notice, communication with the Department of Health & Human Services Office of Civil Rights ("OCR") and development of corrective steps. OCR closed the case taking no further action and noting the voluntary compliance efforts of the entity.
- Prepared and reviewed company policies including Written Information Security Programs, document management, social networking and incident response.
- Conducted internal investigation of processes and procedures of professional sports league, including analysis of discipline by league of teams, coaches and players, and of document management policy.
- Conducted an internal investigation of a large-scale data leak of personnel information at a Fortune 100 Corporation; interviewing relevant employees and preparing a report and recommendations for the Executive Board.
- Advised clients on proper security measures in connection with employee and customer personal information.
