

White Collar Defense & Internal Investigations

OVERVIEW

The White Collar Defense and Internal Investigations Group at Eckert Seamans protects individuals and corporations confronted by state and federal criminal and/or administrative investigations. We defend clients who are charged with crimes and/or named in administrative enforcement proceedings. Our attorneys wage complex civil litigation, conduct internal investigations, and provide compliance counseling that keeps clients out of trouble in the first place.

Our cases frequently involve allegations of mail and wire fraud; false claims; securities fraud; bank fraud; antitrust violations (civil and criminal), including price fixing, tax fraud, health care fraud, civil, or criminal RICO; violations of environmental crimes; money laundering; bribery; perjury; obstruction of justice; government procurement fraud; price fixing; insider trading; export violations; counterfeiting; civil or criminal forfeitures; consumer protection violations (state and federal), including state attorney general multistate litigation; and various improprieties relating to the operation of financial institutions.

Our lawyers have had substantial experience and success in resolving issues with state attorneys general before multistate enforcement action develops and in resolving investigations short of criminal charges or administrative enforcement proceedings. We are not afraid of a fight, however. We are experienced trial lawyers who are ready, willing, and able to litigate in state and federal courts nationwide.

Frequently, these investigations commence in one state and can expand quickly to a multi-state investigation. Our team includes two former state attorneys general, whose in-depth experience and understanding of how an AG office functions, of AG relationships, and how AGs strategize and collaborate in multi-state investigations, is invaluable. Across various practice areas, our firm can advise clients on a range of state AG matters as well as related matters with the federal government, where state AGs sometimes share dual enforcement authority with agencies including the U.S. Department of Justice, the Federal Trade Commission, the U.S. Environmental Protection Agency and the newly-created Consumer Financial Protection Bureau. Our AG practice also examines the underlying policy issue, to determine whether a matter can be addressed and resolved other than through litigation by a single AG or multi-state approach.
